*We have exciting and interesting news from the fields of design, technology and other highlights for you.*

## A new generation of decors

*With our Grandson Oak, we are presenting a decor that has already made quite an impression in the furniture industry across Europe.*

*Remarkably realistic, the Grandson Oak impresses with a coarse, rough and extremely natural surface and a highly detailed finish. Thanks to the real pore effect, this decor impresses not only visually, but also haptically.*

Perceptible and robust - Grandson Oak is the answer to the trending topic of balk-oak.
